WORLD GAMES 2022 - DRONE RACING EVENT ATHLETES SELECTION

Dear friends,

In July 2021, we have sent to all NACs and delegates to CIAM, a document in which we were describing the details for the selection rules for the Athletes who will be eligible to participate to the 2022 World Games. This event will take place in Birmingham, Alabama, USA.

This document is attached to this email.

Following the announced selection rules, you will find attached the selection lists for men and women which are based on the ranking lists and criteria announced. The ranking lists are already published on the [FAI web page](#). The selection lists also mention the reserve athletes for selection in case selected athletes decline their participation.

Based on the TWG 2022 selection milestones table, we will contact the NACs of the selected athletes in order to approve their selected athletes and confirm their participation.

Date	Milestone
31 December 2021	End of the qualification/selection period
1 February 2022	Publication by FAI of the reference ranking lists Information of the selected athletes and NACs concerned
1 February - 31 March 2022	Approval by the NACs of their selected athlete(s) Reallocation by FAI of the vacant slots, if any
31 March 2022	Sports entries deadline
From 1 April 2022	Late athlete replacement subject to IWGA approval

As CIAM we are very proud that Aeromodelling will be present for the first time at this very important event and we strongly believe that this is another major step to the recognition of Drone Sport as an FAI ambassador to the sports community.

Also, we would like to inform you that CIAM is in direct contact with AMA (US Aeromodelling organization) so to be able to organize this event to the best possible way and of course according to the required high standards.

David Roberts is the team leader of this task and working together with his team, they achieved that the event will take place in a different venue than the initial designated one (Barber Motorsports Park). The venue will be the Protective Stadium which is a new stadium recently inaugurated in which the opening and the closing ceremonies will take place. This is a very good development since the visibility of our sport will be much better.

Please follow the [FAI web page](#) for TWG 2022, so to find all the latest news available.

Kind regards

Antonis Papadopoulos

CIAM President
