

2024

# F3F World Cup Report

**E**xactly 235 different pilots participated in the 13 F3F FAI World Cup competitions in nine different countries. This is again an increase of 36 pilots compared to the previous World Cup in 2023. The reason was the huge pre contest of the 2024 World Championship in Saint Ferriol, France with 70 different pilots.

In the end a well know an totally deserved podium was crowned. This is also underlined by the fact, that two from three pilots are F3F World Champions on their own. The winner was Thorsten Folkers from Germany with 118 points, followed by Robert Bartok from Slovakia with 103 points. Third place went to Philipp Stary from Austria achieving 72 points.

It was possible to bring back World Cup medals for the winners of every single competition. Since this was very appreciated, the medals for 2025 are already in the making.

The trophies for the first three pilots of the final ranking were again sponsored by Siegfried Schedel from Germany.

Also totally worth mentioning was the competition F3F Slovakia Cup 2024 held by the club RC Letka Kosice. The team, organising a World Cup competition for the first time, was able to find a perfect slope in Krizna and was able to complete 22 rounds without a single refight or any complain.

*Thorsten Folkers, Germany, Winner of the FAI World Cup 2024*

## Data

### Ranking

Ranking	Name	Nationality	Points
1	Thorsten Folkers	Germany	118
