FAI Competition Management System

The image shows a screenshot of the FAI Competition Management System web interface. The background features a blue sky with various aircraft, including a helicopter, a hot air balloon, a biplane, and a glider. The interface includes a header with the FAI logo and the text 'Competition Management'. A user is logged in as 'Hi Super User.' with a 'Log out' button. Below the header, there are navigation tabs for 'SL', 'CM', and 'Admin'. A search section contains several filters: a search box for 'Search ID or Event Title...', a 'Category' dropdown set to 'First Category', a 'Sport' dropdown set to 'Select discipline', a 'Country' dropdown set to 'Select country', and a 'Year' dropdown set to '2015'. There are also two empty text boxes for 'Starting between' and a 'Search' button. Below the search filters, it says 'Showing 1 to 20 of 26 entries' and a pagination control with buttons for 'First', 'Previous', '1', '2', 'Next', and 'Last'. A table displays two event entries with columns for Event ID, Title, Start, End, Place, Category, and Details.

CASI Proposal GS SC 2016

NOTE :

The General Section has been subject to a thorough revision and certain provisions are now the responsibility of the ASCs to determine. These are :

If an FCE is cancelled or stopped, the ASC will determine if unused fees are to be returned.

If a competitor or team withdraws after having paid entry fees, the ASC will determine the amount, if any, of fees to be refunded

Currently Diplomas are given to 10 places in an event. ASCs will now decide if Diplomas are to be given and to whom.

Where an International record performance is set during an FCE, an ASC may allow direct notification to FAI, with all relevant information, without going through the usual dossier submission process.

The R&R Committee will discuss these and make proposals for the Plenary.

In addition, the GS revision will result in changes to section references in SC5. This will be done in the preparation of the 2015 edition of SC5.

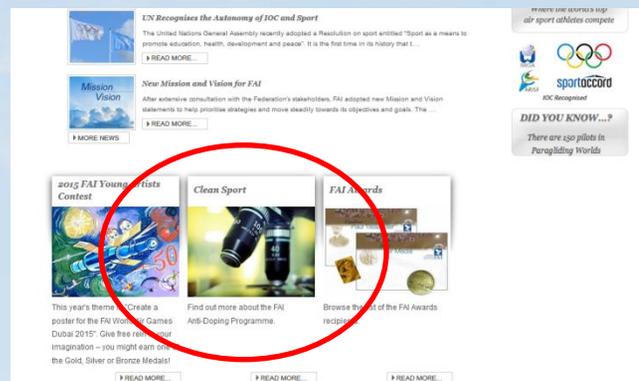

Anti-Doping

- New rules – 4 year sanction instead of 2 years

22/05/2014

In another key milestone in the process of building Olympic Agenda 2020, a strategic roadmap for the future of the Olympic Movement, IOC President Thomas Bach today released the membership of the 14 Working Groups which will help frame some of the key recommendations. Each group will be made up of key stakeholders of the Olympic Movement, including IOC members, athletes and representatives of the International Federations and National Olympic Committees. As part of the ongoing open and inclusive process, a number of experts have also been included from civil society, including representatives of leading international organisations, NGOs and business organisations. The Working Groups will look at proposals made by the Olympic Movement, the world of sport and even by individual members of the public. Under discussion will be topics ranging from Ethics and the Youth Olympic Games to Good Governance and Autonomy and the planned Olympic TV Channel.
