

FAI Electric Flight World Cup 2009

Report

Electric Flight World Cup events will be organised for the two classes F5B-gliders and F5D- pylon racing model aircrafts during the years in which there are no World Championships, that means every two years.

This year we had four World Cup events in the F5B glider class with total 42 competitors of 10 countries. The World Cup event in Cismădia RO was the prologue competition of the European Championships on the same airfield – as a long tradition in electrics. The prologue competitions train the organizers and the competitors in a realistic manner.

Unfortunately we had again no World Cup competition in the F5D Pylon Racing class. This is not very motivating for the international F5D scene.

Thanks to Ian Kaynes for the fine presentation of the results on the CIAM websites.

World Cup events in the F5B Glider Class:

22/23 May	Militky Cup	Pfäffikon SUI
30/31 May	Pannonia Cup	Oberpullendorf AUT
13/14 June	Coppa Pratese	Prato ITA\$
9 September	Magurei Cup	Cismădia RO
